State:  Liquid

 Powder

 Frozen

Storage and shipping conditions:

 Room Temperature

 +8°C  
 +2°C

 -20°C

Shelf life, in months:

 24 m

# Antibiotics

The use of antibiotics is a helpful tool in the cell culture field or where fluids have to be conserved and prevented from bacterial contamination.

Most of the antibiotics suppress the growth of micro-organisms by blocking an anabolic pathway.

NANOMYCOPULITINE actively kills the bacteria, including mycoplasma, in all three stages of development without interfering with the eukaryotic metabolism.

## ANTIBIOTICS

### Amphotericin B

Cat N° :	<b>L0009-050</b> <b>L0009-100</b>	Unit/Size :	<b>50 ml</b> <b>100 ml</b>		 -20°C	 24m
Cat N° :	<b>P4030-250MG</b>	Unit/Size :	<b>250 mg</b>		 +8°C +2°C	 24m

### Antibiotic-Antimycotic 100X

Cat N° :	<b>L0010-020</b> <b>L0010-100</b>	Unit/Size :	<b>20 ml</b> <b>100 ml</b>		 -20°C	 24m
----------	--------------------------------------	-------------	-------------------------------	-----------------------------------------------------------------------------------	-----------------------------------------------------------------------------------------	-----------------------------------------------------------------------------------------

### G-418 (Geneticin) Solution

Cat N° :	<b>L0015-020</b> <b>L0015-100</b>	Unit/Size :	<b>20 ml</b> <b>100 ml</b>		 -20°C	 24m
----------	--------------------------------------	-------------	-------------------------------	-------------------------------------------------------------------------------------	-------------------------------------------------------------------------------------------	-------------------------------------------------------------------------------------------

### G-418 Sulfate

Cat N° :	<b>P0017-1GR</b> <b>P0017-5GR</b>	Unit/Size :	<b>1 g</b> <b>5 g</b>		 +8°C +2°C	 36m
----------	--------------------------------------	-------------	--------------------------	-------------------------------------------------------------------------------------	--------------------------------------------------------------------------------------------------	-------------------------------------------------------------------------------------------

### Gentamicin Sulfate

Cat N° :	<b>P4020-1GR</b> <b>P4020-5GR</b>	Unit/Size :	<b>1 g</b> <b>5 g</b>		 +8°C +2°C	 48m
----------	--------------------------------------	-------------	--------------------------	-------------------------------------------------------------------------------------	--------------------------------------------------------------------------------------------------	-------------------------------------------------------------------------------------------

### Gentamicin Sulfate 10 mg/ml

Cat N° :	<b>L0011-010</b> <b>L0011-100</b>	Unit/Size :	<b>10 ml</b> <b>100 ml</b>		 -20°C	 24m
----------	--------------------------------------	-------------	-------------------------------	-------------------------------------------------------------------------------------	-------------------------------------------------------------------------------------------	-------------------------------------------------------------------------------------------

### Gentamicin Sulfate 50 mg/ml

Cat N° :	<b>L0012-010</b> <b>L0012-100</b>	Unit/Size :	<b>10 ml</b> <b>100 ml</b>		 -20°C	 24m
----------	--------------------------------------	-------------	-------------------------------	-------------------------------------------------------------------------------------	-------------------------------------------------------------------------------------------	-------------------------------------------------------------------------------------------

### Glutamine-Penicillin-Streptomycin 100X

Cat N° :	<b>L0014-100</b>	Unit/Size :	<b>100 ml</b>		 -20°C	 24m
----------	------------------	-------------	---------------	-------------------------------------------------------------------------------------	-------------------------------------------------------------------------------------------	-------------------------------------------------------------------------------------------

### Kanamycin Solution 100X

Cat N° :	<b>L0008-020</b> <b>L0008-100</b>	Unit/Size :	<b>20 ml</b> <b>100 ml</b>		 -20°C	 24m
----------	--------------------------------------	-------------	-------------------------------	-------------------------------------------------------------------------------------	-------------------------------------------------------------------------------------------	-------------------------------------------------------------------------------------------

### Nanomycopultine Concentrat 20 x

Cat N° :	L-X16-010 L-X16-100	Unit/Size :	10 ml 100 ml		 -20°C	 24m
----------	------------------------	-------------	-----------------	-----------------------------------------------------------------------------------	-----------------------------------------------------------------------------------------	-----------------------------------------------------------------------------------------

### Penicillin G Sodium Salt - 1 Million Units

Cat N° :	P0018-1MU	Unit/Size :	1 Million units		 +8 +2°C	 36m
----------	-----------	-------------	--------------------	-----------------------------------------------------------------------------------	----------------------------------------------------------------------------------------------	-----------------------------------------------------------------------------------------

### Penicillin-Streptomycin

Cat N° :	L0018-020 L0018-100	Unit/Size :	20 ml 100 ml		 -20°C	 24m
----------	------------------------	-------------	-----------------	-----------------------------------------------------------------------------------	-----------------------------------------------------------------------------------------	-----------------------------------------------------------------------------------------

### Penicillin-Streptomycin Solution 100X

Cat N° :	L0022-020 L0022-100	Unit/Size :	20 ml 100 ml		 -20°C	 18m
----------	------------------------	-------------	-----------------	-----------------------------------------------------------------------------------	-----------------------------------------------------------------------------------------	-----------------------------------------------------------------------------------------

- Other Antibiotics and packagings available on request.
- For your special formulation, please contact us so we can make your custom made product on request.
