PLATES 96 PCR/REAL TIME

Plates 96 PCR/Real-Time plates for PCR and/or qPCR applications available in 100 plates per pack. Each well can store up to 0.1ml of volume and has rounded V-shaped tips. The plates have trims corners and are compatible with any thermocyclers.

CAT No.: SMGBM1-8706LN

Volume of wells: 0.1ml

Number of wells: 96

Quantity: 100 plates

Applications:

- PCR
- Real-time PCR (qT-PCR)

Colour: clear

Features:

- Optically clear skirts for optimal visualisation
- Thin-walled rounded V-shaped wells to provide optimal heat transfer
- Sealable with its raised rim design
- Compatible with any standard pipettes and thermocyclers
- Have cropped corners
- Labelled with alphanumeric characters

Storage:

- Keep away from UV and sunlight
- Store dry at room temperature
